DETAILED ACTION

Applicants' arguments, filed 5 May 2003 have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claims 1-4 and 21, 23 and 24 are currently pending.

Prior Art Made of Record

The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: US 6,270,963 B1 (Stevens et al.).

Claim Rejections - 35 USC § 112

Claims rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

This is a new matter rejection.

Regrettably, Applicant has failed to provide detailed support for the amendments to the claims encompassing step (d), requiring that only the relevant tests defined shall be carried out **without the intervention of a technician**. Without such information in the specification, the claims are not novel over the prior art. Applicant is invited to point to specific page and line number in the specification for support of the instant claims.

Art Unit: 1631

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

In the event that the generic claims are found allowable and applicant is entitled to reconsideration of claims to additional species which are written in dependent form, claims 5-17, 19, 20, and 25 would be rejected for reciting the limitation "sequentially reading out each of said clinical test normal values from said memory" in step (c). There is insufficient antecedent basis for this limitation in the claim. Claim 1 and other independent claims do not contain a means for storing the data into a memory.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

No claims are allowed.
